

Safety regulations for solvent-based impregnation

1. General information

- Use the impregnation only outdoors or in well-ventilated areas.
- Keep the product away from open flames, sparks and heat sources.

2. Personal protective equipment (PPE)

- Respiratory protection: Use a respirator with an organic filter (A2) in case of insufficient ventilation.
- Eye protection: Wear safety glasses to avoid splashing in the eyes.
- Hand protection: Use chemical-resistant gloves (e.g. nitrile or butyl rubber).
- Body protection: Wear long-sleeved clothing and closed-toe shoes to prevent skin contact.

3. Handling and use

- Shake well before use and use in accordance with manufacturer's instructions.
- Avoid direct contact with skin and mucous membranes.
- Immediately absorb and properly dispose of any spills with absorbent material.

4. Health and environmental precautions

- Vapours may cause dizziness or headaches – avoid inhalation.
- In case of skin contact, the product may cause irritation or allergic reaction.
- Do not discharge into drains, soil or natural waters – the product is harmful to the environment.
- Dispose of surplus and empty containers in accordance with local regulations for hazardous materials.

5. Emergency measures

- In case of skin contact: Wash with plenty of soap and water. Get medical attention if irritation occurs.
- In case of eye contact: Flush eyes thoroughly with water and get medical attention.
- If inhaled in vapour form: Supply fresh air. Get medical attention if you feel unwell.

If swallowed: Do not induce vomiting; seek medical attention immediately and show the label.

6. Storage

- Store in a cool, dry well-ventilated area. Protect from frost.
- Keep away from food, drink and unauthorised access.
- Close containers tightly after use and store in a secure place. Adherence to these safety regulations minimises risks to health and the environment when working with solvent-based impregnation.
